

That Makes One Of Us

You've made up your mind we don't want the same thing
And that we won't change things wishing them away
And there's no use in staying together
Nothing lasts forever. That's what you say

CHORUS:

That makes one of us not in love
That makes one of us who can't give up
If you can walk away from the life we've made
Then that makes one of us

I still believe we've got something worth saving
I keep hoping and praying for another chance
You've held my heart and your gonna break it
Cause you wanna make it a part of your past

CHORUS:

Then that makes one of us
